■ Assistant ESG :

According to the given GRI Report of Conformity, the indicator GRI 401, which relates to "Organizational governance and ethics," is present in the report with a full score of 100.0%. This means that the organization has reported on all material issues related to organizational governance and ethics in accordance with the requirements of this GRI standard. The specific indicator requires disclosing the organization's policies, procedures, and practices related to ethical behavior, including codes of conduct, whistleblowing mechanisms, and training programs for employees.

■ Utilisateur :

Ce rapport est-il prêt pour la CSRD selon les ESRS ?

■ **Assistant ESG :**

According to the provided report of conformity, the organization's performance in relation to the European Sustainability Reporting Standard (ESRS) for the CSRD is at a global score of 25.0%, with only one out of four required indicators present: G1-3 (Materiality). Three important indicators are missing: G1-1 (Business ethics and conduct), G1-4 (Compliance with laws, regulations and codes of business conduct), and G1-5 (Political engagement and lobbying). To be compliant with the CSRD under ESRS, these additional indicators need to be addressed and reported upon.
